  - Year 1 children will receive spellings to learn every Friday. Please help your child to learn these for a test the following Friday.  
Reading regularly at home.
  - Reception: Phonic letter sound packs (more details to follow)  
Home-school diary task each Friday  
Reading or being read to

## Look at what we will be learning about!

### P.E

We will begin the school term introducing basic commands such as 'stop' whilst playing games. Throughout the course of the term, we will also cover balance and floor work in gymnastics and gain skills using the skipping programme - Skip2Bfit.

### Food Technology

We will be designing and making bread for Harvest; Autumn fruit crumbles and pumpkin soup for Halloween. We look forward to exploring where our food comes from.

### R.E

We will be learning about being special - looking at where we belong. We will cover anti-bullying in November. After the half term, we will learn about what times are special and why, focussing on Harvest and Christmas.

### Science

Our topic is all about ourselves and our bodies. We will look at growth, hygiene and our senses. After the half term, we will investigate seasonal change.

### History

We will look at: travel and transport chronology, timelines, old and new transport, early methods of travel - Viking long boats and the Titanic, the invention of cars, trains and planes. Significant individuals: George Stephenson (rail), The Wright Brothers (1<sup>st</sup> successful aeroplane).
